

## Air Purification Technology

*Removing odor, corrosion, airborne dust and VOCs at wastewater treatment and industrial facilities*

Greetings!

### Aerisa Relieves Slaughterhouse Odors in Salt Lake County, Utah

After effective demonstration, Aerisa's air ionization systems were recently **purchased by a confidential meat packing client** in Salt Lake County, Utah, to provide needed odor relief. Unpleasant odors from slaughtering operations, blood coagulation, and wastewater collection discomforted company personnel and customers in the front retail, administrative and conference areas.

*"Our client's conference room meetings weren't fully productive due to the smell," said Stuart Humphries, Director of Sales and Marketing for Aerisa. "Front retail and office areas were sometimes so smelly they'd spray **two cans of air freshener at a time.** An essential oil diffuser running full-time at the retail counter wasn't much help either. However, since installing the Aerisa odor removal units,*

everyone is much happier -- no more  
unnerving stench!"

Loading Operation Outside Conference Room

Unlike masking agents or legacy odor control systems that utilize chemicals, carbon or biological media, **Aerisa systems supply highly-ionized air with  $O_2^+$  and  $O_2^-$  ions to proactively attack odorous compounds while vastly improving in-area working conditions.** "Meat processing or rendering is another perfect application for our air ionization technology," said Humphries. "Air ionization economically treats a broad range of odorous compounds at industrial, wastewater treatment and commercial facilities. Like what we initially provided to this meat packer, Aerisa's complementary ionization demo unit allows prospective clients to witness first-hand the elimination of their unique smelly cocktail prior to full installation."

#### ABOUT AERISA

Aerisa manufactures bipolar ionization technology that results in **dramatic air quality improvements** in a wide array of markets including industrial, institutional, commercial and residential. Aerisa successes are found in the most demanding applications, such as wastewater treatment, food processing, casino, athletic, and transportation. Contact Aerisa at 1-877-4-AERISA (23742) or visit [www.aerisa.com](http://www.aerisa.com).

**CALL TODAY TO SCHEDULE YOUR COMPLIMENTARY  
ODOR-ELIMINATING DEMONSTRATION!**

[AerBreeze](#) is our portable two tube air purification unit with three speed (100 cfm max) fan. We offer a complimentary demo unit trial so you can experience first-hand its effectiveness against your own malodorous "cocktail." **Please contact us at 1-877-4-AERISA (23742) to schedule today.**

Sincerely,

*Stuart Humphries*
