

Website | Wastewater/Industrial | Commercial | Ionization Science | Library | About Aerisa

Greetings!

Thankful for You and for Recent Aerisa Successes!

In this holiday season, we are **thankful for industry partners like YOU** who recognize Aerisa as a leader in odor control, corrosion control, and workplace air quality improvement!

Aerisa is also honored by the recent publication about air ionization in the Nevada Water Environment Association's [The Water Spot](#). This two-page article includes a discussion on how air ionization works, what it is and is not, and its O&M considerations.

We are further grateful for our air quality improvement successes! Click on the following pictures for more detail on some recent accomplishments:

Goodyear, Arizona
Headworks & Solids Bldgs

Hauppauge, New York
Headworks Building

Regina, Saskatchewan
Septage Receiving Building

Ayer, Massachusetts
Tofu Wastewater

Tempe, Arizona
Formaldehyde

Salt Lake County, Utah
Slaughterhouse

May we help you with an air quality concern at a wastewater treatment, industrial, or commercial facility?

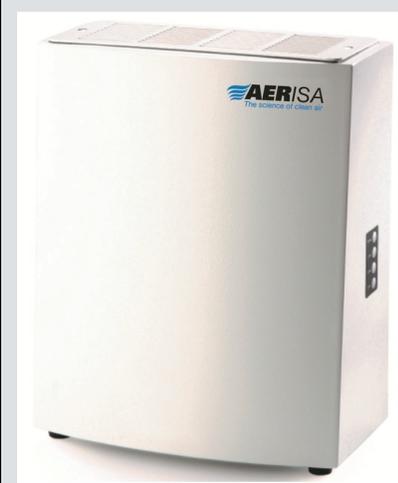

We at Aerisa wish you a joyous and blessed holiday season!

QUESTION:

If you must heat a building, did you know that Aerisa can **combine heat with air ionization** in the same economical Ionizing Makeup Air Unit?

Aerisa provides an electric or gas furnace in our [AerSupply](#) units as a standard option. Particularly beneficial for classified areas, this discipline integration eliminates the need for costly explosion-proof unit heaters while also providing odor and corrosion control inside the building.

**CALL TODAY TO SCHEDULE YOUR COMPLIMENTARY
ODOR-ELIMINATING DEMONSTRATION!**

[AerBreeze](#) is our portable two tube air purification unit with three speed (100 cfm max) fan. We offer a complimentary demo unit trial so you can experience first-hand its effectiveness against your own malodorous "cocktail." **Please contact us at 1-877-4-AERISA (237472) to schedule today.**

ABOUT AERISA

Aerisa manufactures bipolar ionization technology that results in **dramatic air quality improvements** in a wide array of markets including industrial, institutional, commercial and residential. Aerisa successes are found in the most demanding applications, such as wastewater treatment, food processing, casino, athletic, and transportation. Contact Aerisa at 1-877-4-AERISA (237472) or visit www.aerisa.com.

Sincerely,

Stuart Humphries
