

Indoor Air Quality Technology

*Remove Dust and Pollen
Neutralize Odors and Gases
Reduce Energy*

[Website](#) | [Wastewater](#) | [Industrial](#) | [Commercial](#) | [Ionization Science](#) | [About Aerisa](#)

Greetings!

Aerisa ionization technology now available to the local dispensary

Aerisa manufactures bipolar ionization technologies that result in dramatic air quality improvements. Our technology is used at all levels of Cannabis production... from the [grow houses](#) to the production facilities and now, at local dispensaries.

Highlights:

- Remove airborne odors, dust, bacteria, and even virus within your facility creating a healthier breathing environment for your workers and your customers
- Protect your product from mold and mildew and let Aerisa's technology extend the life of your inventory

Solution:

- Odors and other contaminants are removed almost instantly
- Technology creates a healthier environment
- Very low energy consumption

Model 1000/2000 Ionization Unit:

- Installed within the duct work for distribution throughout

the store

- Includes a 5 position dial to fine tune ion levels
- Easy installation with immediate results*
- Use [Model 1000](#) (\$625) for areas up to 2,000 ft2
- Use [Model 2000](#) (\$800) for areas up to 4,000 ft2

*Call your local HVAC contractor for installation

Please email info@aerisa.com for more information or to place your order.

ABOUT AERISA

Aerisa manufactures bipolar ionization technology that results in **dramatic air quality improvements** in a wide array of markets including industrial, institutional, commercial and residential. Aerisa successes are found in the most demanding applications, such as wastewater treatment, food processing, casino, athletic, and transportation.
