

Dear Aerisa Reps,

Our efforts with ASHRAE are paying off. Two recent ASHRAE Epidemic Task Force publications are now promoting the use of bipolar ionization. This is in stark contrast to previous ASHRAE statements made as late as April of this year.

See slides 17 and 30 in this *Schools + Universities* reopening document:

<https://www.ashrae.org/file20resources/covid-19/ashrae-reopening-schools-and-universities-c19-guidance.pdf>

And see slide 66 of their *Building Readiness* document published just a few days ago on August 19th:

<https://www.ashrae.org/file20resources/covid-19/ashrae-building-readiness.pdf>

Be sure to send this email to your engineering and contractor accounts as well as your end users and let's continue to excel over the competition!

Andy Weiller
